Capstone projects are the culmination of students' learning experience at the University.

They distill the knowledge and skills acquired in academic courses and apply them to a real-world project.

For their Capstone projects, students identify an information problem or need. They then develop the approach and methods needed to address the problem, conduct the research and present the findings in both oral and written formats. Capstone projects are developed during fall semester (September-December) and are implemented during winter semester (January through April).

The final piece is the Capstone event at the end of the school year. Students get the opportunity to present their projects to faculty, friends, family, colleagues, and sponsors as well as a panel of judges to be considered for a number of awards. It is the engineering faculties most popular and prestigious event of the year.

- Walk-in advising is for students who have a plan in mind for the upcoming semester and only need a quick double check and sign off.
- First come, first served basis.
- Walk-ins should average 5-7 minutes in length per student.
- You should be familiar with your program template and bring a list of the courses intended to take.

Academic Advisors:

- Co-operative Education & Graduate Student Advising - Christina Tathibana & Colleen Walsh (On Leave)
 - Coop & Internship advising for undergraduate students
 - Academic advising for graduate students
 - Academic advising for undergraduate students (registration period)
- Undergraduate Student - Melissa Berwald
 - First and Second Years Students
 - Transfer Credits
 - Studying Abroad
 - Course Planning
 - Letter of permission (LOP)
- Undergraduate Student - Gina MacPherson
 - Academic Probation
 - Discontinuance
 - Re-admittance
 - Student Appeals
 - First Years
- Undergraduate Student - Janice Savoie
 - Available between 1:30 to 3:30 every Tuesday - by appointment
 - Senior Students
